

To the TVCEF,

The Twin Valley Community has been home for my wife Ellen, myself and our four children, Evan, Emily, Kayla and Julie since moving to Elverson in 1992. Building a home, a dental practice and watching our children grow up in this beautiful and caring community was a true gift. All four of our children attended the Twin Valley School District, receiving an excellent education, many opportunities with music, art, athletics and also where we met many wonderful teachers and friends. Serving as the school dentist for Twin Valley for the past 27 years was also an opportunity to work with all the great nurses, teachers and administration throughout the district. The opportunity to aid in the student's dental health was the focus and also a way to introduce myself to the schools and student body.

Having a dental practice in the Twin Valley community has been an honor and a privilege for me both as a dentist, and as a neighbor and friend. The "up close and personal" view I had with so many amazing patients has helped me grow both personally and professionally. The trust and support I have received during my career has far exceeded any expectation I could have had when moving to this area. With the help of my amazing staff we created a true family environment where everyone felt welcomed and received the best dental care we could give.

Receiving the Twin Valley Community Education Foundation's 2020 Community Leadership Award for Lifetime Achievement is very heartfelt and meaningful. Thank you to the Twin Valley community for all it has done for my family and our dental practice over the years. There are many great leaders throughout our community and I'm honored to be recognized as one of them.

Sincerely,

Scott Wallace DDS
